*Thought Matters* is the annual conference organised and facilitated by The Salvation Army Tri-Territorial Theological Forum (TTTF). The TTTF exists to facilitate theological discussion which informs ministry practice. It is composed of representatives from each of the contributing territories—Australia Eastern, Australia Southern and New Zealand, Fiji and Tonga.

This year's conference will explore the definition of salvation. The biblical concepts of new creation and abundance raise potential implications for our understanding of salvation. Have we individualised, spiritualised, privatised and institutionalised notions of salvation? What does a fuller concept of salvation actually look like?
